The parties to this action, by and through their respective attorneys of record, hereby jointly submit this Case Management Conference Statement and Proposed Order.

The parties are presently performing their obligations under a written settlement agreement. The parties had expected to have completed the settlement process, and to have filed a request for dismissal of the action, by the time of the January 12, 2006 Case Management Conference. However, the parties were recently advised by the Court Clerk that the Court is unable to disburse the interpled funds

pursuant to this Court's Order because of a change in the Court's accounting system, and that the disbursement will not occur until late January. Soon after that disbursement is made, per the parties' settlement agreement, the parties will submit a request that the action be dismissed. Accordingly, the parties jointly request that the January 12, 2007 Case Management Conference be vacated and that it be re-set for March 9, 2007, so as to accommodate the time necessary for the Court to complete its conversion of its accounting system and disburse the funds as directed by the Court, which will then enable the parties to complete their settlement obligations and request a dismissal of the action.
